

TESTIMONIAL

"The Community Foundation of Greene County has been working with World Kinect Energy Services (previously OnDemand Energy) through ChamberChoice since 2012.

I had attended a Chamber luncheon where a representative spoke about the energy choice program – talking about how they would review our current costs and do the research among the many energy programs to find the best option for us – price, guarantees, etc. I was hooked! I don't have the knowledge, nor the time, to figure out all the different rates and offers. I sent him our energy bills and he provided us with the best options. With their knowledge of the energy business, I let them do the research for me. I know that I am not only getting the best price for my energy generation, I don't have to worry about hidden costs or changing rates. It's all spelled out.

Working with World Kinect Energy Services has given us peace of mind knowing that they are looking out for us. Now, when I get those pesky calls from other energy companies trying to get me to give them information, all I do is tell them that I work with my Greene County Chamber Energy Program, and they will work it out for me."

Bettie Stammerjohn

Executive Director
