Canonsburg Cake Company

We held a ribbon cutting in September for this new member's virtual business, and it has grown so much that now there is a physical location. On March 25th, we celebrated the Grand Opening of Canonsburg Cake Company's bakery space, located at 1 West Pike Street in Canonsburg! This was a joint effort between the Greene County Chamber, Peter's Township Chamber and Greater Canonsburg Chamber. Thank you to everyone that was able to make it up to the ribbon cutting.

RIBBON CUTTINGS

SmartSand Inc.

SmartSand Inc. held a ceremonial ribbon cutting for their new rail transloading terminal station located at the Iron Senergy preparation plant in Waynesburg in March. By helping to support this project, more than half a million dollars were secured from a Rail Freight Assistance Program (RFAP) grant to ensure this concept comes to fruition.

Before EQT Corporation partnered with SmartSand on the project, Northern White Sand—which is used in the

hydraulic fracturing process—would be transported in from Ohio via heavy trucks. This railcar terminal will reduce the average distance per load to well sites, yielding a reduction of almost three million miles in truck travel per year. As a result, this will positively impact our environment along with reducing wear and tear on roads. Most importantly, this operation will create permanent jobs in Greene County.

Chamber of Commerce Scholarship Deadline Approaching

The Greene County Chamber of Commerce is reminding the public that the deadline for three scholarship opportunities is approaching.

This is the thirty-second anniversary of the Greene County Chamber of Commerce Scholarship. The scholarship program is open to any Greene County student who will be graduating senior in 2022. In addition to the \$1,500 scholarship the winner will also receive a laptop, courtesy of Pcsquared.

The Chamber urges all high school seniors who have been accepted to a College or Technical School as an incoming freshman this Fall and have maintained a cumulative grade point average of 3.0 or better while in high school to apply for this scholarship.

Applications are available in the Chamber of Commerce Office at 3157 Mt. Morris Road and can also be obtained by calling the Chamber of Commerce office at 724 627-5926 or downloaded from the Chamber website at www.greenechamber.org

Completed applications for both scholarships must be submitted by 3:30pm on Thursday, April 14th. The winners will be announced in early May and the Scholarship Award presented at the Chamber's General Membership Luncheon on May 25th which will be held at Waynesburg University.

Highlights from the Pittsburgh Great Gathering

University of Pittsburgh SBDC to relocate outreach center in Greene County, partner with Greene Co. Chamber of Commerce

The [University of Pittsburgh Small Business Development Center](#) (SBDC) announced the relocation of its outreach office in Greene County to the [Greene County Chamber of Commerce](#) offices in Waynesburg at 3157 Mt. Morris Road. The move establishes a partnership between the Greene County Chamber of Commerce and the Pitt SBDC in order to streamline services and become more efficient in serving Greene County small businesses.

The University of Pittsburgh SBDC provides no-cost consulting, educational programing, and access to business-building resources for small business owners and entrepreneurs. The Pitt SBDC is part of the [University of Pittsburgh Institute for Entrepreneurial Excellence](#) (IEE) and serves the region in western Pennsylvania. It is also designated as a Pennsylvania SBDC Center of Excellence in Digital Services, providing businesses with specialized services like Search Engine Optimization (SEO) analyses, Social Media audits, e-Commerce consulting, and more.

“The Pitt Small Business Development Center joining us at our GCCC office only makes sense. As both our missions reflect, we strive to best serve the business community and this arrangement will allow both organizations to enhance our efforts,” said Melody Longstreth, Executive Director of the Greene County Chamber of Commerce.

In 2020, the [Pitt SBDC was named the nation’s #1 Small Business Development Center](#) by the U.S. Small Business Administration (SBA) out of roughly 1,000 like centers. In 2021, the Pitt SBDC helped more than 1,400 businesses (which support nearly 10,000 regional jobs) with nearly 15,000 hours of consulting services. The efforts also resulted in clients securing more than \$22 million of business investment and helped launch more than 70 new businesses.

“While we have worked together with the GCCC for years, this move will allow both organizations to be more effective,” explained Ray Vargo, Director of the University of Pittsburgh SBDC. “We see this move helping us expand our presence and being able to better provide our award-winning services for small business owners throughout the county.”

The Pitt SBDC outreach center in the Greene Co. Chamber of Commerce will take effect in April 2022. The SBDC plans to have a business consultant available for one-on-one meetings and consultations every Wednesday during normal business hours. More information on scheduling and services available from the Pitt SBDC can be requested at sbdc@innovation.pitt.edu.

GREENE COUNTY MUSEUM

Greene County  Museum

After a long, cold, busy winter, the Greene County Historical Society Staff are getting the final touches on everything in preparation for Opening Day. Being held April 30, 2022, from 10 AM – 3 PM, it is the official kick off to our season and we couldn't be more excited to welcome everyone back. Our "Blast from the Past Opening Day 5K" is virtual again this year. Allowing participants the flexibility to "5K their way", they can run, jog or walk when and where they want. Registration is active and will remain open until the event date. All proceeds from the 5K directly benefit the GCHS! Register today at: <https://runsignup.com/Race/PA/Waynesburg/StrongerTogetherGreeneVirtual5k>

Our hope is everyone will complete their 5K and come visit us at the Museum when they're done. From 10 AM – 3 PM we will be welcoming guests back with demonstrations and activities across the grounds and self-guided tours of the museum. A few of the attractions we will be offering are Field Work Demonstrations by Fred Kiger's team, Black Smithing, Print Shop Demonstrations, Civil War exercises and much more (subject to change without notice). We always like to give guests something new to explore and we are working on some exciting projects, with the goal of completion before Opening Day. A new display room (or two), rejuvenated hardwood floors and Memory Medallions are just a few of the things guests have to look forward to. While you're here, you won't want to miss grabbing lunch (and something to take home for dinner) from our Brick Oven Concessions. The historic brick oven gives food a unique flavor you can't get anywhere else. Items

including Pizza, Pepperoni Rolls, Hot Dogs, Pierogies and more will be available throughout Opening Day. Our gift shop is stocked with books on local history, books by local Authors and unique gift items. We have also restocked our t-shirts, including the new W & W Railroad graphic, an original creation by volunteer Zac Reitmeyer. A limited quantity of hoodies with the original Museum logo will also be available. If you can't join us for Opening Day, be sure to plan a visit this summer.

Beginning Saturday, April 30, through October 9, 2022, we will be open to the public Tuesday – Saturday from 10 AM – 3 PM. Be sure to follow us on Facebook @gchsofpa or visit our website www.greenecountyhistory.org for a complete list of events and presentations. Come, walk the grounds, tour the buildings, and spend the day with the endless history at the Greene County Historical Society Museum!

ROMAN'S ACUPUNCTURE & WELLNESS

As a result of having health issues early in life, Owner and Founder Stacy Roman wanted to help other's heal, as well as prevent health conditions before they developed. With more and more health issues and concerns in today's world, her goal was to offer a relaxing and safe environment to support the community and offer services that allow for healing in the most natural way possible. This lead to the opening of Roman's Acupuncture & Herbal Clinic in August of 2004. Eventually being renamed, Roman's Acupuncture & Wellness now serves hundreds of people from West Virginia to Pennsylvania, Ohio, and even Maryland.

Located in the hills of Morgantown, WV, Roman's Acupuncture & Wellness is a state-of-the-art wellness center. We use alternative therapies and Traditional Chinese Medicine to treat a variety of conditions in patients of all ages, from infants to elderly. We take the time to listen to our patients so we can get the full picture. At Roman's, we believe in holistic healing — instead of masking the symptoms, we treat the source.

Roman's Acupuncture & Wellness is also a place to relax, unwind, and pamper yourself! We offer a variety of Spa, Esthetic, and Body Contouring services. We have trained professionals who use top-quality products and equipment to leave you feeling and looking your best.

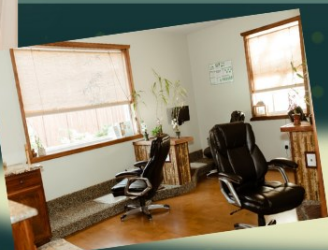

Read what some of our patients have had to say about their experience with us:

"Stacy's services have been instrumental in my healing journey. I would recommend Romans Acupuncture and Wellness to ANYONE. Their philosophy is to treat the ROOT cause instead of masking symptoms. I always feel seen, heard and truly cared for during each visit 10/10!!!!"

"Stacy is amazing! She helped me through one of the hardest journeys of my life, infertility. I always leave there feeling better no matter what the appt is for. I recommend her to everyone and will continue to do so. Make an appt & check their services out! You won't regret it!"

"I have been coming to Roman's Acupuncture & Wellness for 15+ years for help with my MS. Stacey has really helped keep me moving so that I don't succumb to my disease. It is always a joy coming to her practice."

We're here to listen to your goals and needs and help you feel your best. Whether you're visiting us for a relaxing spa day or want to address health issues and concerns, we can help!

THE WAY: A NEW VISION FOR THE COMMUNITY

First Baptist Church, located on 303 W High Street in Waynesburg, is in the process of remodeling the former Belko Foods store, located on 206 W High Street, into a 16,000 square foot community center titled The Way. "The Way will change the spiritual landscape in Greene County by spreading the

love of Jesus," Dawn Mankey, Sunday school teacher and chair of the mission board said.

According to Mankey, the church conceived of the idea to reach out more intentionally into the community before Belko Foods even became available for sale, so when it did it felt like a sign.

"After thinking we should do more and almost the exact funds needed to purchase the building were given to us, we thought that was God's hand in opening that door for sure," Mankey explained.

According to Rev. Dr. Edward Peirce, Senior Pastor at FBC, the funds needed to move forward with the extensive remodeling project are almost completely raised.

"We have a goal of \$2.4 million. We started raising money about eight months ago," Pierce said. "We're very close to \$2 million right now. As soon as we receive our official 501 c3 designation from the IRS, I would anticipate the other funds."

Pierce explained that The Way will consist of preschools, a playground and recreational area, a conference area for various groups, a café that will be open to the public, as well as a half-court or full-court gymnasium.

What is especially unique is that, although The Way is property of FBC, it will be its own nonprofit entity.

"They'll have their own board, and they'll make their own decisions about what they're doing. We want this to be a collaborative community and interdenominational effort. We don't want this to be simply us trying to do this," Pierce said. "We need the Christian community and the community at large to help us support this. There's a great deal of excitement and anticipation about the availability of the center and how we can use it to address the needs of our community."

Vice moderator at FBC, Jonathan Johnson, had a hand in facilitating the purchase of Belko Foods and is eager to see the impacts this new asset to downtown Waynesburg will bring.

"Making something new and exciting for people to rally around in our community is so important," Johnson said. "We have an opportunity to meet the needs of our community with the use of this building and the programming developed through The Way Community Center of Greene County. The vision for this is still being crafted."

Johnson expressed that for The Way to be successful, it will take a substantial amount of people and organizations to come together, as this center is distinct from the church. "So, if someone has an idea that they're passionate about, something that can make a difference, then they need to reach out to us," he explained. "We don't want to replicate what anybody else is doing, and we want to come alongside people that are doing good work and figure out how we can all work together. Those are all things that we really want to be able to do, that we know will be required for us to truly change our community."

Member Dr. Lawrence Stratton earns 2022 Lucas-Hathaway Award

History of Teaching Excellence—Recognizes a faculty member with a history of teaching excellence.

Presented as a faculty member who “treasures every contribution made by a student in the classroom,” Dr. Lawrence Stratton, associate professor of ethics and constitutional law, received the 2022 History of Teaching Excellence Award. It was mentioned that he “is an excellent teacher, not only for extraordinary intelligence, but also for the genuine interest in both the subject matter and the students.”

One colleague stated that he “raises the bar for our students, presenting thought-provoking material and exposes students to a blend of lecturing and Socratic teaching.”

A student nomination for Dr. Stratton shared that he “does not do what he does to be rewarded, he does it for the love of his students and the future of this world.”

Dr. Stratton holds a Bachelor of Science degree in Economics from the University of Pennsylvania’s Wharton School, a Juris Doctor degree from Georgetown University Law Center and a Master of Divinity degree and a Ph.D. in Philosophy from Princeton Theological Seminary.

In addition to his teaching responsibilities, Dr. Stratton is the Director of the Stover Center for Constitutional Studies and Moral Leadership at Waynesburg University. The Lucas-Hathaway Charitable Trust has established an endowed fund that provides two annual teaching excellence awards for full-time faculty members and one award for a part-time faculty member. Faculty members were nominated by students, faculty or alumni. Each recipient will receive a commemorative plaque and a \$1,200 award. The Trust is funded by J. Richard Lucas and C. Joan Hathaway Lucas, members of the class of 1950.

Waynesburg University Unveils New Esports Arena

Waynesburg University recently completed construction on its new, state-of-the-art Esports Arena, made possible by a generous donation from an anonymous donor. The Esports Arena will be home to the University’s new esports program, launching in fall 2022. Located in Buhl Hall, the facility is completely functional and will be accessible to current students for various events during the remainder of the spring semester. The University received a \$400,000 in-kind gift from an anonymous donor to support the development of the program within the Department of Athletics.

“I am very excited to see the growth of esports at Waynesburg University,” said Adam Jack, Director of Athletics, Chairperson for the Criminal Justice and Social Sciences Department and Professor of Criminal Justice. “The generous Donor that provided us with this state-of-the-art gaming equipment and esports arena, as well as the vision of President Lee, Provost Baer, and all of the Senior Staff members, have created a platform for Waynesburg University to be the premiere location for competitive esports in this region. The partnerships that we have already established have positioned us to take a lead role in the development of esports in Southwestern Pennsylvania.”

The University’s esports arena is one of the largest in the region, with 25 stations, each equipped with the following: Alienware Aurora R12; Alienware 38” Curved Gaming Monitor; Alienware Gaming Mouse; Alienware Mechanical Gaming Keyboard; and An electric height adjustable standing desk. Bose QuietComfort Noise Cancelling Headphones are also available to players.

The space is also equipped with an Optoma projector and a separate viewing room. The Arena and the viewing room are separated by a 4’ x 8’ SmartGlass window. The SmartGlass is normally opaque, providing the esports team privacy. Once the glass is electrified, the glass becomes clear for viewing.

IN THE NEWS

Greenbriar Treatment Center to Join Gateway Rehabilitation Center

Officials from Washington Health System (WHS) announced that they have entered into an agreement with Gateway Rehabilitation Center for purchase of the health system owned drug and alcohol rehabilitation locations known as the Greenbriar Treatment Centers. Under this agreement, all Greenbriar Treatment Center services will become a part of the Gateway Rehab addiction treatment network. It is anticipated this transaction will be completed by June 30, 2022.

Brook Ward, President and CEO of Washington Health System said, “Greenbriar and Gateway have historically been the leading providers of drug and alcohol related health services in the Pittsburgh market and beyond. The proposed merger will enable the community, family members of those seeking treatment, and our referring healthcare professionals, to have a centralized and streamlined system to coordinated care for patients.”

Benefits from the proposed agreement will keep the focus on the patient(s) that need help during their road to recovery. This includes a financially sustainable model for drug and alcohol services within our communities and continuing to provide the highest quality addiction and recovery treatments to the local members of our community while also managing costs. As the health care industry continues to evolve, providers and consumers are both seeking solutions that meet public demands for coordinated care, at a reasonable cost.

Over the last several months, the leaders of WHS and Gateway Rehab determined that the best way to ensure a strong future for the delivery of addiction treatment was to join forces.

James Troup, President and Chief Executive Officer of Gateway Rehab, stated, “With this proposed transaction, staff, patients, partners and the community can be assured that services will continue to be provided including the long-term treatment facility located inside WHS Greene, in Waynesburg Pennsylvania.” Also, the vast majority of Greenbriar Treatment Center employees will be offered positions through Gateway Rehab and this transition will not affect services provided in the immediate future.

Troup added, “Greenbriar Treatment Center is a strong fit with Gateway Rehab’s mission and philosophy. Both companies have similar values and principles including treating everyone with respect and dignity while also recognizing every individual is unique in their path to recovery.”

Between now and June 30th, representatives of the three organizations will be finalizing all standard “due diligence” and completing documents related to the closing of the transaction. Once the transaction is complete, Gateway will operate the long-term inpatient residential facility, located inside WHS Greene (350 Bonar Ave., Waynesburg) as well as the Greenbriar Detoxification & Inpatient facility in Washington Pa, and the outpatient facilities in North Strabane, Monroeville, New Kensington, South Hills, Squirrel Hill, Wexford, Robinson, and two halfway houses (one for men and one for women).

The Value of Effective Communication for Employee Engagement

MYBENEFIT
ADVISOR

Some of the most impactful decisions a person makes during the course of a year regards those pertaining to personal healthcare for themselves and any affected family members. For those who are employed, company benefit programs can provide a safety net that offers significant financial protection against any financial obligations arising from such medical situations.

For employers this presents a challenge, especially in today's work-from-home environment. The process of communicating benefit options and boosting employee engagement can be complex and time-consuming as human resource staff must consider the mixed demographics, capabilities and diverse needs of the workforce. Complicating matters, there's no one-size-fits all communication method to reach all employees.

But the importance of designing an effective communication strategy cannot be overstated. The value placed on a company benefit program is a key component in the employer's ability to attract and retain quality talent. And employees who understand and utilize a well-designed benefit program are typically more engaged, resulting in a workforce that is typically more productive...resulting in a win for both employer and employees.

The Greene County Chamber of Commerce offers its members access to My Benefit Advisor as a solution for employee benefits, including voluntary offerings. For more information about My Benefit Advisor, visit our website at greene.mybenefitadvisor.com or contact Mike Galardini at (800) 377-3539.
