## The Benefits of a Section 132 Transit Account

### MYBENEFIT ADVISOR

Section 132(a) of the IRS code allows employees to pay for their qualified commuting costs (up to specified limits) with pre-tax dollars. The program was created to encourage commuting in a way that reduces road congestion and improves air quality so qualified expenses include transit passes, vanpooling, bicycling expenses and work-related commuter parking, but excludes the cost of fuel to drive a personal car to work.

As a pre-tax benefit, the program provides employees with a savings on their federal payroll tax since the designated benefit amount is deducted from their gross income. If any employees reside in a state that recognizes pre-tax benefits, the savings will increase. Employers who provide this benefit save on payroll taxes since the employer does not include the designated benefit amount in the employee's gross income.

Qualifications and restrictions of this program include:

- Transit benefits are for any public or privately-operated transit service. Transit passes, farecards, tokens, vouchers or passes are included.
- Vanpooling is a valid expense provided that 80% of the mileage is for the transport of employees to and from work, the van must have seating capacity for at least 6 workers plus the driver and at least half the seats must be used.
- Commuter parking is valid if parking is at or near the worksite and the employee commutes to work via transit, vanpool or carpool. Parking for residential purposes is excluded.

Please feel free to speak to an MBA Advisor for more information and instructions for setting up a Section 132(a) plan.

The Greene County Chamber of Commerce offers its members access to My Benefit Advisor as a solution for employee benefits, including voluntary offerings. For more information about My Benefit Advisor, visit our website at [greene.mybenefitadvisor.com](http://greene.mybenefitadvisor.com) or contact Mike Galardini at (800) 377-3539.
