#### 2023 dividend declared for the ChamberChoice business insurance program

Program has returned nearly \$12.9 million in dividends over 11 years.

Chambers of Commerce Service Corporation (CCSC) is pleased to announce that Penn National Insurance has declared a 3% dividend for the ChamberChoice Business Insurance program. Members, who placed their insurance coverage with Penn National Insurance during the 2021/2022 program year and remained active chamber members and policyholders through the end of the program year, will receive a dividend check during the month of June. This year's dividend totaled over \$640 thousand. Over the past 11 years, Penn National Insurance has returned an average of 6% in dividends each year, and an aggregate total of \$12.9 million to the business community. The ChamberChoice Business Insurance program is just one of many benefits that CCSC offers its member Chambers. The partnership between Penn National Insurance and CCSC was designed to provide a valueadded membership benefit that would help Chambers attract and retain members. An important aspect of this group insurance program is preventing loss and controlling claims costs. Because dividends are based on the group's collective loss experience, a business that may have had a significant loss may still be eligible to receive a dividend. The program is sold exclusively through local, independent agents who can offer chamber members a variety of coverages and pricing on property and casualty insurance, including businessowners, commercial auto, property, general liability, inland marine and workers' compensation. Dividends are paid on all of these coverages. In addition, through safety consulting, Penn National Insurance and local independent insurance agencies encourage member businesses to develop safety practices to substantially reduce or eliminate workplace injuries.

... that's how much ChamberChoice members earned in dividends by purchasing their business insurance through Penn National Insurance.

#### Program Features

All-lines dividend (excluding umbrella and bonds).

Dividend payments are based on total group program premium and claims experience of eligible lines.

As program grows, so does dividend potential.

 Enhanced coverages on auto, businessowners, property, workers compensation, and general liability
 giving you added protection at no additional cost.

Information and services to help reduce losses the payoff is greater dividend potential

Outstanding, local claim and customer support service

#### Don't miss out on this opportunity.

Visit your chamber directory or PennNationallnsurance.com to find a chamber member agent who represents Penn National Insurance.

#### How It Works

Dividend earned is based on the total group premium and claims experience of eligible lines

For example: If group premium is: and group loss ratio is: Group dividend is:

\$32 million 32% 5%

If member premium is: Dividend earned will be: \$20,000 **\$1,000** 

Dividend payments are based upon program eligibility and are not guaranteed.

#### The Recent Trend in Employee Benefits

The latest trend in employee benefits is a shift towards more personalized and flexible offerings that cater to the needs and preferences of individual employees. This trend is being driven by several factors, including the growing importance of work-life balance, the rise of the gig economy, and changing demographics in the workforce.

One example of this trend is the increasing popularity of "cafeteria-style" benefits plans, which allow employees to choose from a menu of options to create a personalized benefits package. This can include options such as health insurance, retirement plans, and wellness programs, as well as more unconventional benefits such as pet insurance or paid time off for volunteering.

Another trend is the focus on mental health and well-being. Many companies are recognizing the importance of supporting employees' mental health and are offering benefits such as access to counseling services, mindfulness and meditation programs, and flexible work arrangements.

Finally, companies are also recognizing the importance of financial wellness and are offering benefits such as student loan repayment assistance, financial planning services, and access to low-interest loans.

Overall, the latest trend in employee benefits is a move towards more personalized, flexible, and holistic offerings that reflect the changing needs and priorities of today's workforce.

The Greene County Chamber of Commerce offers its members access to My Benefit Advisor as a solution for employee benefits, including voluntary offerings. For more information about My Benefit Advisor, visit our website at greene.mybenefitadvisor.com or contact Mike Galardini at (800) 377-3539.

## WASHINGTON HEALTH SYSTEM AND UPMC SIGN LETTER OF INTENT TO PURSUE AFFILIATION

The Boards of Directors of both Washington Health System (WHS) and UPMC (University of Pittsburgh Medical Center) have signed a non-binding letter of intent to negotiate an affiliation agreement between the two entities that would integrate WHS into the UPMC system. The WHS Board of Directors met on June 1, 2023, and unanimously voted to pursue affiliation discussions with UPMC, a clinically integrated and world-renowned nonprofit health care provider and insurer.

"Our primary focus is to ensure the residents of Washington and Greene Counties have local access to high-quality health care that is sustainable into the future," said Brook Ward, President and CEO of WHS. "After careful consideration and analysis, we believe the best path forward is to affiliate with UPMC to achieve that goal. We currently have numerous clinical arrangements and joint ventures with UPMC, which have provided our patients with exceptional care over the years. From our experience working with UPMC and knowing their track record of providing outstanding patient care, it was an obvious choice to select UPMC as our partner going forward."

For the past several decades, WHS and UPMC have collaborated in several areas to deliver high-quality, patient-centered care, including:

- Our joint partnership in local cancer treatment, a collaboration with UPMC Hillman Cancer Center and based at WHS Washington Hospital. This partnership has brought cutting-edge cancer expertise and treatment to the area while eliminating the inconvenience of traveling for care.
- UPMC Children's Hospital of Pittsburgh, Express Care clinic and other specialty clinics, also on the campus of WHS Washington Hospital. These have brought specialty pediatric services to the community and have augmented the physicians and advanced practice providers of the Washington Physicians Group in their mission to provide Great Patient Care.
- UPMC's Heart and Vascular Institute (HVI) provides vascular surgery services throughout the communities WHS serves.
- Onsite neonatal care provided at every birth by UPMC Children's Hospital.
- Senior care services provided at Strabane Trails and Strabane Woods.
- OB ultrasounds interpretation services by UPMC Magee-Womens Hospital.
- And, additional partnerships in telestroke, Chartwell specialty pharmacy services and Clinical Connect HIE electronic records.

WHS Washington Hospital was also one of the original members of the UPMC Health Plan when it was launched 26 years ago. This affiliation with UPMC would help ensure continued high-quality care that patients in the WHS community have come to expect over the past several decades.

In late 2022, the WHS Board of Directors submitted a request for proposals to affiliate with a larger health care provider that could enhance the services and clinical offerings of WHS. The Board's intent in seeking an affiliation was to keep high-quality health care that is sustainable and locally available not only for today, but for the future generations of Washington and Greene Counties.

"The Board and senior leadership of WHS have realized, that in today's health care environment, we need to consider the long-term stability of our health system to continue to provide the quality health care services our local residents have come to expect. With that goal, we are excited to be able to affiliate with UPMC, a premier integrated health care system, to continue our mission of Great Patient Care," said Dan Miller, Chairman of WHS Board of Directors.

The signing of the letter of intent means WHS and UPMC have agreed to conditions of affiliation. Over the next several months, both entities will engage in due diligence, research and discussions to work towards a definitive agreement. This affiliation is subject to customary regulatory filings, and WHS and UPMC leaders hope to complete the affiliation as soon as possible. WHS will keep its team members, partners and community members updated as there are developments to share.
